

CPTAC Imaging Proteomics

The National Cancer Institute's [Clinical Proteomic Tumor Analysis Consortium \(CPTAC\)](#) is a national effort to accelerate the understanding of the molecular basis of cancer through the application of large-scale proteome and genome analysis, or proteogenomics. Data (genomics, proteomics, imaging), assays, and reagents are made available to the public as a Community Resource to accelerate cancer research and advance patient care. TCIA has partnered with CPTAC to host both the radiology and pathology imaging data generated by the project.

CPTAC Imaging Special Interest Group

You can join the [CPTAC Imaging Special Interest Group](#) to be notified of webinars & data releases, collaborate on common data wrangling tasks and seek out partners to explore research hypotheses! Artifacts from previous webinars such as slide decks and video recordings can be found on the [CPTAC SIG Webinars](#) page.

On July 1, 2019 representatives from the CPTAC program presented to the Imaging SIG. This included an overview of the program and tutorials about how to access the data in the various CPTAC websites:

- Welcome (Bob Nordstrom)
- [Clinical Proteomic Tumor Analysis Consortium \(CPTAC\) Project Overview](#) (Chris Kinsinger, 15min)
- CPTAC radiology & pathology image data at TCIA – live demo (Justin Kirby, 15min)
- [CPTAC Data Portal and the Proteomics Data Commons](#) (R. Rajesh Thangudu, 30min)
- [CPTAC genomic data at the Genomics Data Commons](#) (Ana Robles, 15min)

CPTAC Imaging Cohorts

CPTAC imaging data is being made available on a release schedule [that is coordinated with the CPTAC program releases of proteomic and genomic data.](#)

Learn more about each cancer type by clicking on the collection names in the table below. Data currently available is listed below. Clicking on the number of subjects will take you to these data portals with that particular cancer type pre-selected. You can access the radiology and pathology data directly from the respective data portals.

- [Radiology Data Portal](#)
- [Pathology Data Portal](#)

Collection	Cancer Type	Location	Radiology Modalities	Radiology Tumor Annotations	Radiology Total Subjects	Pathology Total Subjects
CPTAC-AML	Acute Myeloid Leukemia	Marrow, Blood				88
CPTAC-CCRCC	Clear Cell Carcinoma	Kidney	CT, MR, RTSTR UCT	CPTAC-CCRCC-Tumor-Annotations	65	222
CPTAC-non-CCRCC	Non-Clear Cell Renal Cell Carcinoma	Kidney	CT, MR		4	39
CPTAC-CM	Cutaneous Melanoma	Skin	CT, MR, PT		13	92
CPTAC-GBM	Glioblastoma Multiforme	Brain	CT, MR		66	178
CPTAC-HNSCC	Head and Neck Squamous Cell Carcinoma	Head-Neck	CT, MR, PT, RTSTR UCT	CPTAC-HNSCC-Tumor-Annotations	122	112
CPTAC-LSCC	Squamous Cell Carcinoma	Lung	CT, PT		36	212
CPTAC-LUAD	Adenocarcinoma	Lung	CT, MR, PT		25	244
CPTAC-PDA	Pancreatic Ductal Adenocarcinoma	Pancreas	CT, MR, PT, US	CPTAC-PDA-Tumor-Annotations	108	168

CPTA C-SAR	Sarcomas	Abdomen, Arm, Bladder, Chest, Head-Neck, Kidney, Leg, Retroperitoneum, Stomach, Uterus	CT, MR, PT		24	88
CPTA C-UCEC	Corpus Endometrial Carcinoma	Uterus	CT, MR, PT, US	CPTAC-UCEC-Tumor-Annotations	85	250

Corresponding Genomic, Proteomic, and Clinical Data

The other data types will be hosted in separate tools and databases including:

1. [CPTAC Data Portal](#)
2. [Proteomic Data Commons](#)
3. [Genomic Data Commons](#)
4. CPTAC Python/R notebooks are available at <https://github.com/PayneLab/cptac> and on Google Colab at <https://cuddly.com/ekMMht7>.

CPTAC 2 Cohorts

Collection	Cancer Type	Location	Pathology (Subjects)
CPTAC-BRCA	Breast Invasive Carcinoma	Breast	134
CPTAC-COAD	Colon Adenocarcinoma	Colon	106
CPTAC-OV	Ovarian Serous Cystadenocarcinoma	Ovary	102

CPTAC - TCGA Cancer Proteome Studies

There are 28 ovarian (TCGA-OV) and 14 breast (TCGA-BRCA) cases in TCIA which have corresponding CPTAC phase 2 proteomic analysis data. The Proteomic Analysis Data is available at: <https://pdc.cancer.gov/pdc/browse>.

Images and Clinical Data Downloads

These subsets of radiology images can be accessed using the following links:

- [CPTAC Proteomic Breast TCIA TCGA cases](#)
- [CPTAC Proteomic Ovarian TCIA TCGA cases](#)

The clinical data for these subjects can be found in these spreadsheets:

- [TCGA-BRCA Clinical data](#)
- [TCGA-OV Clinical data](#)

References

An early CPTAC publication which reports on a more comprehensive collection of cases from those TCGA tumor data collections (BRCA and OV) can be found at: "Comprehensive quantitative analysis of ovarian and breast cancer tumor peptidomes".
