

# CIP TCGA Radiology Initiative

The [Cancer Genome Atlas \(TCGA\)](#) began in 2006 as a three-year pilot jointly sponsored by the National Cancer Institute (NCI) and National Human Genome Research Institute (NHGRI). The TCGA pilot project (focused initially on glioblastoma, ovary, and lung cancers) confirmed that an atlas of genomic changes could be constructed for specific cancer types. It also showed that national networks of research and technology teams working on related projects could pool their efforts, create an economy of scale, and develop an infrastructure for making the data publicly accessible. The success of that pilot encouraged the National Institutes of Health (NIH) to invest in TCGA's efforts to collect and characterize more than 20 additional tumor types and make findings freely accessible for researchers to download.

The genomic, clinical and histopathology images from the project are available via NCI's [Genomic Data Commons](#). NCI's Cancer Imaging Program subsequently leveraged the agreements with TCGA Tissue Source Sites to collect clinical diagnostic images from these subjects and make them available on TCIA. By combining the imaging data from TCIA with the other data types collected by TCGA a research community focused on connecting cancer phenotypes to genotypes was formed, resulting in over one hundred peer-reviewed publications about these data.

## Data Access

Radiology data for TCGA patients are hosted on TCIA. Pathology images were collected prior to TCIA's involvement in the project, and are hosted on NCI's [Genomic Data Commons](#) along with the genomic and clinical data from these studies. Use the links in the table to access each type of imaging data.

Collection	Tumor Type	Locations	Modalities	Radiology (Subjects)	Pathology (Subjects)
<a href="#">TCGA-BLCA</a>	Bladder Endothelial Carcinoma	Bladder	CT, CR, MR, PT, DX, Pathology	<a href="#">120</a>	<a href="#">412</a>
<a href="#">TCGA-BRCA</a>	Breast Cancer	Breast	MR, MG, Pathology	<a href="#">139</a>	<a href="#">1098</a>
<a href="#">TCGA-CESC</a>	Cervical Squamous Cell Carcinoma and Endocervical Adenocarcinoma	Cervix	MR, Pathology	<a href="#">54</a>	<a href="#">307</a>
<a href="#">TCGA-COAD</a>	Colon Adenocarcinoma	Colon	CT, Pathology	<a href="#">25</a>	<a href="#">460</a>
<a href="#">TCGA-ESCA</a>	Esophageal Carcinoma	Esophagus	CT, Pathology	<a href="#">16</a>	<a href="#">183</a>
<a href="#">TCGA-GBM</a>	Glioblastoma Multiforme	Brain	MR, CT, DX, Pathology	<a href="#">262</a>	<a href="#">606</a>
<a href="#">TCGA-HNSC</a>	Head and Neck Squamous Cell Carcinoma	Head-Neck	CT, MR, PT, RTSTRUCT, RTPLAN, RTDOSE, Pathology	<a href="#">227</a>	<a href="#">520</a>
<a href="#">TCGA-KICH</a>	Kidney Chromophobe	Kidney	CT, MR, Pathology	<a href="#">15</a>	<a href="#">113</a>
<a href="#">TCGA-KIRC</a>	Kidney Renal Clear Cell Carcinoma	Renal	CT, MR, CR, Pathology	<a href="#">267</a>	<a href="#">537</a>
<a href="#">TCGA-KIRP</a>	Kidney Renal Papillary Cell Carcinoma	Renal	CT, MR, PT, Pathology	<a href="#">33</a>	<a href="#">288</a>
<a href="#">TCGA-LGG</a>	Low Grade Glioma	Brain	MR, CT, Pathology	<a href="#">199</a>	<a href="#">515</a>

<a href="#">TCG</a> <a href="#">A-</a> <a href="#">LIHC</a>	Liver Hepatocellular Carcinoma	Liver	MR, CT, PT, Pathology	<a href="#">97</a>	<a href="#">377</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">LUAD</a>	Lung Adenocarcinoma	Chest	CT, PT, NM, Pathology	<a href="#">69</a>	<a href="#">514</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">LUSC</a>	Lung Squamous Cell Carcinoma	Lung	CT, NM, PT, Pathology	<a href="#">37</a>	<a href="#">495</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">OV</a>	Ovarian Serous Cystadenocarcinoma	Ovary	CT, MR, Pathology	<a href="#">143</a>	<a href="#">590</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">PRAD</a>	Prostate Cancer	Prostate	CT, PT, MR, Pathology	<a href="#">14</a>	<a href="#">496</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">READ</a>	Rectum Adenocarcinoma	Rectum	CT, MR, Pathology	<a href="#">3</a>	<a href="#">171</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">SARC</a>	Sarcomas	Chest-Abdomen- Pelvis, Leg, TSpine	CT, MR, Pathology	<a href="#">5</a>	<a href="#">261</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">STAD</a>	Stomach Adenocarcinoma	Stomach	CT, Pathology	<a href="#">46</a>	<a href="#">440</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">THCA</a>	Thyroid Cancer	Thyroid	CT, PT, Pathology	<a href="#">6</a>	<a href="#">506</a>
<a href="#">TCG</a> <a href="#">A-</a> <a href="#">UCEC</a>	Uterine Corpus Endometrial Carcinoma	Uterus	CT, CR, MR, PT, Pathology	<a href="#">65</a>	<a href="#">560</a>

## Frederick National Lab Research Efforts

Imaging Source Site (ISS) Groups were organized by the [Cancer Imaging Informatics Lab](#) within the [Frederick National Laboratory for Cancer Research](#). The groups were governed by participants from institutions which provided imaging data to the archive for each TCGA cancer type. Modeled after the TCGA genomic analysis groups, ISS groups were given a one year embargo window after 100 cases were accrued to publish a marker paper for a given cancer type. This increased incentive among source sites to contribute their patients' images, which would ultimately become a public resource to enable radiogenomic research. The ISS groups included:

<b>Group Name</b>	<b>Tumor Type</b>
<a href="#">TCGA Bladder Phenotype Research Group</a>	<a href="#">Urothelial Bladder Carcinoma (BLCA)</a>
<a href="#">TCGA Breast Phenotype Research Group</a>	<a href="#">Breast invasive carcinoma (BRCA)</a>
<a href="#">TCGA Glioma Phenotype Research Group</a>	<a href="#">Glioblastoma (GBM), lower grade glioma (LGG)</a>
<a href="#">TCGA Renal Phenotype Research Group</a>	<a href="#">Kidney renal clear cell carcinoma (KIRC)</a>
<a href="#">TCGA Ovarian Phenotype Research Group</a>	<a href="#">Ovarian serous cystadenocarcinoma (OV)</a>

## TCGA Collections Publication Guidelines

Historically TCIA had implemented publication guidelines derived from the policy outlined by the The Cancer Genome Atlas, TCGA. These were followed **in addition** to the publication policy of the TCGA Data Portal: <http://cancergenome.nih.gov/abouttcga/policies/publicationguidelines>. **As of 10/30/2018 all cancer types are now available for use without any special restrictions.** Please be sure to follow TCIA's regular [Data Usage Policies and Restrictions](#), and to also provide attribution recognizing the TCGA data collection efforts. An example of a proper attribution is:

"The results <published or shown> here are in whole or part based upon data generated by the TCGA Research Network: <http://cancergenome.nih.gov/>."
